

## Getting to Kaohsiung Exhibition Center

If arriving by taxi, show ↓ Chinese ↓ to driver!  
請載我到高雄展覽館(高雄市前鎮區成功二路39號)

### From Taiwan Taoyuan International Airport:

Take a shuttle bus to Taoyuan High Speed Rail Station. Then take the High Speed Rail to Zuoying Station in Kaohsiung. From Zuoying Station, take the MRT (Kaohsiung Metro) to Sanduo Shopping District Station. From there take a free shuttle bus to Kaohsiung Exhibition Center on show dates.

### From Taiwan Kaohsiung International Airport:

Take the MRT (Kaohsiung Metro) to Sanduo Shopping District Station and transfer to a FREE show period Aqua Taiwan shuttle bus to Kaohsiung Exhibition Center.

### By MRT (Kaohsiung Metro)—

Take the Red Line (Gangshan South—Siaogang) and get off at R8 (Sanduo Shopping District) Station. From there, take an Aqua Taiwan free shuttle bus to Kaohsiung Exhibition Center on show dates.

### By Taxi—

Taxis are convenient in Kaohsiung and fares are reasonable. The minimum fare is NT\$85, increasing by increments of NT\$5 per 250m, with a NT\$20 per trip surcharge added from 11 PM to 6 AM. It takes only about 15 minutes from Kaohsiung International Airport to the Kaohsiung Exhibition Center.

### By Shuttle Bus—

Ride the FREE show period Aqua Taiwan shuttle buses that zip between Kaohsiung Exhibition Center and MRT Sanduo Shopping District Station.

### By Kaohsiung Light Rail—**NEW**

Take the green line LRT (Lizihnei-Kaohsiung Exhibition Center) to C8.

Kaohsiung Exhibition Center  
39, Cheng-gong 2nd Road, Qianzhen  
District, Kaohsiung, TAIWAN

## Events

- Forum
- Seminars
- Procurement Meetings
- New Product Launches

## Leading the trends with smart innovation!

Water in all its shapes and uses is embraced by AQUA TAIWAN (Taiwan Int'l Water Show) that connects every link of the industry at a dedicated exclusive venue. It's where scores of companies come to launch their latest products and 1-on-1 business procurement meetings unfold with incredible promise.

### Sustainability beckons infinite prospects

According to a recent study, a fifth of the world's countries will be suffering from acute water shortage by the year 2040. This specter has spurred rapid policy change as people and nations scramble to save clean water and treat waste water. A fresh wave of prospects have also rose in everything from recycling and reuse to purification and old plumbing replacements.

### Vertical industrial mosaic covers every link of the chain

AQUA TAIWAN joins providers and pros at a single expo that shows it all. Check out- Technical treatment facilities - Equipment - Materials - Maintenance - Operating management & system - Related services.

This vertical industrial mosaic covers it all with theme areas like water treatment, transportation, storage & accessories, water hardware, bathroom & shower facilities, terminal water purification & drinking water, fluid automation & control, as well as water resource businesses & peripheral services.

### Nearby production clusters offer walk-in factory access

A key attraction to AQUA TAIWAN at Kaohsiung Exhibition Center is its close proximity to a cluster syndicate of water resource industries in the suburbs. Buyers on the same day can access these factories which double the prospects of a show visit.

The city itself has become a target for wastewater reclamation plants since it faces huge challenges in meeting high water demand while handling water discharge. In the long run Kaohsiung aims to achieve zero growth in industrial water usage while significantly improving its water quality.

## Growing on the success of 2015

## Source Regions of Top 10 Buyers

## Key Players and Products

### Water Treatment:

- TankPAC Industries
- HUNG PUMP
- ITRI
- Jadesun

- Nonstone
- Air Power Master
- Liquid DQ

### Public Sector:

- Pingtung Export Processing Zone, MOEA
- Construction and Planning Agency, Ministry of Interior

from Japan, Malaysia, and more

## Buyer Testimonials ★★★★★

### Basim Farajallah, President of Ciel De Loire from U.A.E.:

We have been visiting the show for two consecutive years. Thanks to this event, we have been able to seek out new collaborating vendors, and we look forward to more opportunities to forge partnerships with companies in Taiwan.

### Neil Towner, Managing Director of OCEANIA Water Group from Fiji:

We are very satisfied with our procurements from Taiwan. The high cost-performance ratio of Taiwan products has given us the confidence to increase the amount of follow-up procurements.

### Gelu Stan, Managing Director of S.C. Compania De Apa Oradea from Romania:

Our company is currently servicing high demand of water purification facilities in Europe that will continue until 2020. Taiwan International Water Show is a wonderful procurement platform to scout our needs.
