

What they have said about TILS ...

A great cost base and I think the quality process is very viable for us in the market, that source quite attractive to us.

- Mr. Oliver Lawal, CEO, Aquisense Technologies (U.S.A.)

Taiwan is one of the leading countries in electric industry. Therefore, we expect every year to visit TILS for new product and new partnership.

- Ms. Oksana Yermakova, Art Director, Debora Electro (Ukraine)

Taiwanese companies have better management and also their products are outstanding. That's why we keep buying products from Taiwan.

- Mr. Steffen Bux, Product Manager, Deko-Light (Germany)

TILS 2017 Spotlights the Latest Lighting Tech, Products & Design!

Register NOW to EXHIBIT or to VISIT TILS 2017 !

Attend as an Exhibitor:

Secure your priority location at TILS 2017, please check

Taiwan Lighting Brightens the World

TILS+LED Taiwan, 2-in-1 Fair to Maximize Biz Opportunities

With lighting already the most promising application for LEDs, the global market size of LED lighting is projected by IHS (U.S.) and IEK (Taiwan) to explosively surge to US\$92.3 billion by 2019 from some US\$40 billion in 2015. In the scenario, Taiwan, the world's top-2 LED maker with outstanding production and R&D capabilities, will play an increasingly important role in the global supply of LED lighting.

TILS will be held again in tandem with LED Taiwan in 2017 as a 2-in-1 fair with themes "Smart Lighting" and "Lighting Design", to bring together LED lights, smart lighting, medical lights, automotive lighting systems, IR lights, lighting for agriculture & aquaculture, etc. under one roof.

Sparkling Concurrent Events and Innovations, to Turn TILS 2017 into Asia's Most Influential Platform for Lighting Industry.

As Taiwan's leading lighting and LED trade fair, TILS 2016 and LED Taiwan 2016 together hosted 238 exhibitors manning 748 booths and from nine countries, with attendance of 902 foreign buyers and 11,815 local trade visitors. This 2-in-1 trade fair provides global buyers a close look at innovative, marketable lighting products developed by Taiwanese suppliers.

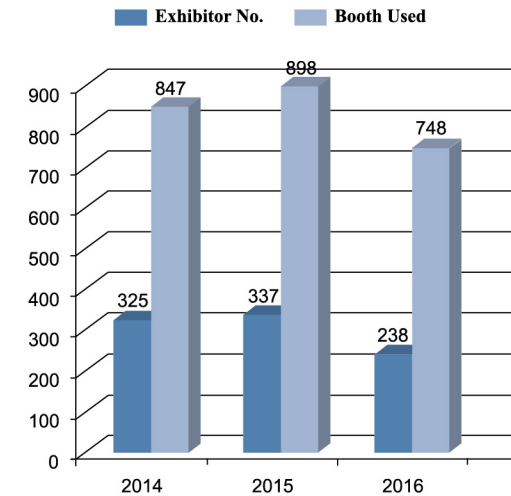

At TILS and LED Taiwan 2017, visitors will be able to experience a journey to innovations and keep themselves updated with the newest knowledge of LEDs and lighting trends, mainly through a slate of interesting concomitant events organized, including a joint opening ceremony, one-on-one procurement meetings, seminars, lighting industry forums and innovation product awards.

Highlighted Events

- TILS + LED Taiwan Joint Opening Ceremony
- One-on-One Procurement Meetings
- Innovative Products Awards
- Seminar/Lighting Industry Forum
- tSSL Seminar
- New Product Launch

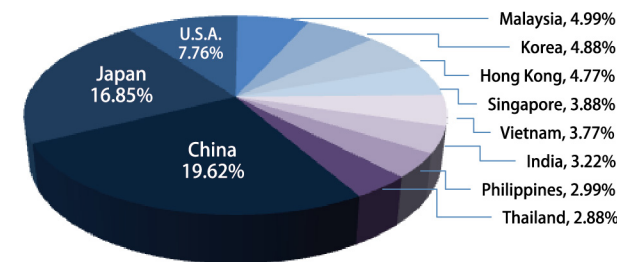

* Events are subject to change without prior notice. Please check the official website <http://www.TILS.com.tw> for updated information.

(Overseas: 902 Domestic: 11,815)

TILS + LED Taiwan 2017 Allows Easy Access to Taiwan's Lighting Industry

In the face of growing rivalry from Chinese and Korean competitors, Taiwan's LED and lighting fixture makers have switched their focus onto the developing of niche, higher-end products to stay competitive and buoyant in the global market, to which TILS and LED Taiwan allows easy access.

While LEDs are heavily applied in lighting to have effectively addressed concerns about energy consumption of lighting fixtures and environmental protection, smart lighting incorporating IoT technology is also emerging as a promising trend to drive the future of the lighting industry. Echoing the trends with an underpinning slogan "Smart Design, Radiant Life", TILS + LED Taiwan 2017 is set to write a new chapter in history of Taiwan's lighting industry.

Also notable is that the Taiwanese government has just announced the "Green Trade Action Plan" in 2016, with an aim to enhance a share of green products, including LED lighting, and related services in the country's export structure, and boost Taiwan's global reputation as a green trade platform in East Asia.

Output Projections of Taiwan and World's LED Industry
